About eBlu Solutions

STREAMLINED PRACTICE AUTHORIZATION WORKFLOW

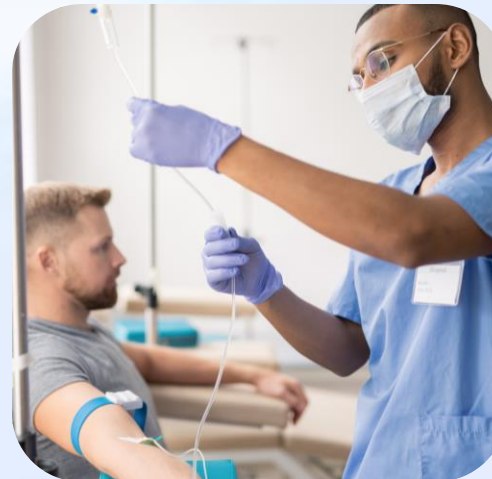

For over 10 years, we've been working directly with specialty healthcare practices to provide the **Benefit Investigation, Prior Authorization Support, and Copay Enrollment** they need to get patients to treatment faster. Through unique partnerships with key players in the healthcare industry like you, we're changing the way patients who require high-cost infusion and injection treatments get to and stay on therapy.

**1400+ Specialty
Locations**

**15,000+
Providers**

**>1300
Payers**

**Therapeutic
Areas**

Rheumatology
Gastroenterology
Neurology
Allergy & Asthma
Multi-Specialty

The Challenge

Current manual workflow processes to verify benefits and acquire prior authorization include multiple touch points by practice personnel and can delay the time to treat by **up to 8 weeks**.

The Solution

eBlu Solutions leverages technology and workflow automation to speed up the entire benefit investigation process. Total time to treat from diagnosis to treatment administration is **shortened to less than 72 hours** with eBlu Solutions.

ID to IV in 72 hours

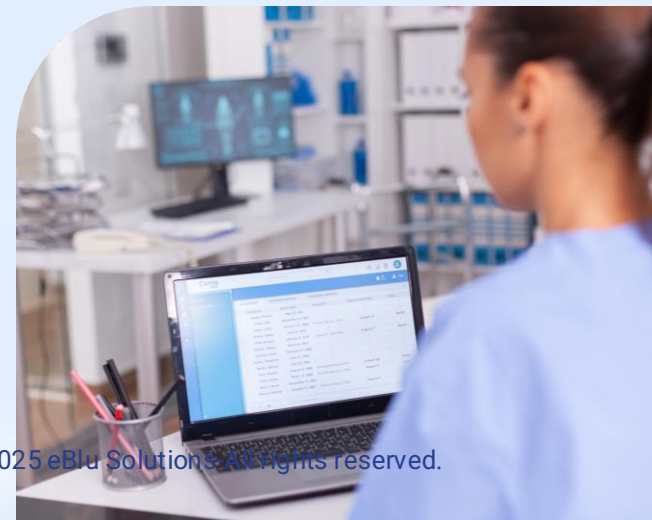

Full Benefit Investigations
